
Sanjaya Maharjan

Lead Software Engineer | Cloud-Native Systems Architect (since 2012)

Kathmandu, Nepal (open to relocation) | smaharjan.codes@gmail.com
linkedin.com/in/sanjaya-maharjan

Lead Software Engineer delivering enterprise platforms across full-stack development, cloud-native architecture, and modernization. Specialized in .NET microservices and secure APIs, with modern front-ends in React/Angular. Focused on clean architecture, performance, DevOps automation, and production operations.

Core Focus

- Modernize legacy applications to cloud-native architectures (AWS-first)
- Design microservices and secure REST APIs with strong contracts and versioning
- Improve performance and reliability for high-traffic systems; automate delivery with IaC and CI/CD

Technology Snapshot

Backend	C#, .NET (Framework/Core), ASP.NET Core, Web API, Entity Framework, LINQ
Frontend	React, Angular, TypeScript/JavaScript, Next.js, HTML/CSS
Cloud/DevOps	AWS (EC2, ECS/ECR, Lambda, RDS, S3, VPC, CloudWatch, Route53), Terraform, Docker, CI/CD
Data	SQL Server, PostgreSQL, DynamoDB, MongoDB, Redis

Selected Experience

Lead Software Engineer

UBA Solutions (Monotype Partner) - Nepal • May 2024 - Present

Projects: Research 360; LETS; Fontplus

- Owned architecture for Research 360, transforming raw metadata into a structured analysis and licensing platform.
- Established scalable deployment strategies for high-traffic font services; improved reliability and release safety.
- Delivered full-stack solutions in .NET, React, and AWS; improved performance via loading and data throughput optimizations.

Senior Software Engineer

HP Inc - TX • Oct 2024 - Mar 2025

Projects: HP Workforce Experience Platform

- Built scalable applications across the stack with .NET Core, React, and AWS infrastructure services.
- Improved UX performance using lazy loading and route preloading; implemented reusable TypeScript components.
- Architected secure REST APIs (OpenAPI/Swagger) and automated infrastructure with Terraform and CI/CD.

Senior Software Engineer

Deloitte - CO • Oct 2023 - Sep 2024

Projects: Colorado Unemployment Insurance Platform

- Led API platform delivery: security enforcement (OAuth/API keys), traffic management, and analytics.
- Implemented async workload patterns and SQS-backed processing; used Redis caching to reduce application load.
- Designed microservices for workflow/document/profile management and CI/CD with Azure DevOps.

Additional Experience

Senior Software Engineer

Dwaith Infotech - MN (Remote) • May 2023 - Sep 2023

- Modernized legacy architecture and delivered a high-performance React application with TypeScript UI patterns.
- Built .NET microservices; optimized SQL/NoSQL data stores and containerized deployments.

Solution Architect / Lead Software Engineer

UBA Solutions (Monotype Partner) - Nepal • Apr 2018 - May 2023

Projects: MyFonts.com, Fonts.com, Linotype.com, Fontshop.com

- Scaled and modernized major commerce platforms on AWS (autoscaling, ALB, RDS replicas); migrated on-prem systems to AWS.
- Implemented CI/CD with Jenkins/Octopus and infrastructure provisioning with Terraform; improved monitoring and incident response.
- Strengthened security with OAuth/JWT, SSO, and bot protection; optimized data layer and performance for high-traffic services.

Earlier Experience

2017 - 2018	Lead Software Engineer - Novelty Technology (NC, liaison office Nepal)
2014 - 2016	Senior Software Engineer - Grafi Offshore Pvt. Ltd. (Nepal)
2013 - 2014	Software Engineer - Hatra Inc. (Nepal)
2012 - 2013	Software Engineer - Channakya Software (Nepal)

Education & Certification

- Master's in Computer Science - Nepal College of Information and Technology
- Bachelor's in Computer Engineering - Khwopa Engineering College, Nepal
- AWS Developer Associate Certification
